SUBJECT: ZON10-00111

The City Plan Commission (CPC), on March 24, 2011, voted 5-0 to recommend **APPROVAL** of rezoning the subject property from R-F (Ranch and Farm) to C-1 (Commercial).

There was no **OPPOSITION** to this request.

EPWU-PSB Comments

Water

2. There is an existing 20-inch diameter water transmission main along Lee Trevino Drive fronting the subject property. No direct service connections are allowed to this main as per the El Paso Water Utilities – Public Service Board Rules and Regulations. An 8-inch diameter water distribution main extension along the entire frontage will be required to provide service to the subject property.

3. Previous water pressure readings conducted on fire hydrant No. 5056 located along Lee Trevino Drive approximately 1000 feet south of the subject property have yielded a static pressure of 85 pounds per square inch (psi), residual pressure of 75 psi and a discharge of 1,138 gallons per minute (gpm).

4. The owner should, for his own protection and at his own expense, install at the discharge side of each water meter a pressure regulator, strainer and relief valve, to be set for pressure as desired by the customer. The Lot owner shall be responsible for the operation and maintenance of the above-described water pressure regulating device.

Sanitary Sewer:

5. There is an existing 18-inch diameter sanitary sewer interceptor along Lee Trevino Drive fronting the subject property. This 18-inch interceptor converts into a 27-inch diameter transmission main at the south end of the subject property. No direct service connections are allowed to this interceptor as per the El Paso Water Utilities – Public Service Board Rules and Regulations. An 8-inch diameter sanitary sewer main extension along the entire frontage will be required to provide service to the subject property.

All easements dedicated for public water and sanitary sewer facilities shall comply with the EPWU-PSB Easement Policy. EPWU-PSB requires access to the proposed water and sanitary sewer facilities and appurtenances within the easements 24 hours a day, seven (7) days a week.

7. No building, reservoir, structure or other improvement, other than asphaltic paving (HMAC), shall be constructed or maintained on the El Paso Water Utilities - Public Service Board Easements (EPWU-PSB easements) referenced above without the written consent of EPWU-PSB.

8. Application for new water and sanitary sewer services should be made 6 to 8 weeks prior to construction to ensure water for construction work. New service applications are available at 1154 Hawkins, 3rd Floor. A site plan, utility plan, grading and drainage plans, landscaping plan, the legal description of the property and a certificate-of-compliance are required at the time of application. Service will be provided in accordance with the current EPWU – PSB Rules and Regulations.
